MAR 0 4 2002

DOCKETED BY

IN THE MATTER OF US WEST COMMUNICATIONS, INC.'S COMPLIANCE WITH SECTION 271 OF THE TELECOMMUNICATIONS ACT OF 1996. DOCKET NO. T-00000A-97-0238

PROCEDURAL ORDER

BY THE COMMISSION:

On February 8, 2002, Arizona Corporation Commission Staff ("Staff") filed a Motion to Modify Procedural Order of January 15, 2002. The January 15, 2002 Procedural Order set a schedule for the issuance of the Cap Gemini Ernst & Young ("CGE&Y") OSS final Report. Staff seeks to extend certain dates set in the Procedural Order to accommodate an additional workshop day. Staff proposed the following changes to the schedule set in the January 15, 2002 Procedural Order:

Final Workshop Day

February 21, 2002¹

Final Report issued to TAG and Commission

February 28, 2002

Staff Report

March 11, 2002

Parties submit comment on the Final Report

And Staff Report

March 21, 2002

On February 12, 2002, Qwest Corporation ("Qwest") filed an Opposition to Staff's Motion. Qwest does not oppose an additional workshop day, but requests that the remaining schedule be slightly shorter than that proposed by Staff. Qwest additionally requested that the schedule include deadlines for filing Staff's recommended reports for Checklist items 4 and 10, Section 272, General Terms and Conditions and Public Interest/Track A, and a date set for the Commission's special open meeting to finalize the remaining items.

27

28

¹ The parties subsequently agreed to conduct the workshop on February 25, 2002.

On February 12, 2002, AT&T Communications of the Mountain States, Inc. and TCG Phoenix (collectively "AT&T") filed a Response to Staff's Motion. AT&T supports an additional workshop day, but has many issues with the rest of the proposed schedule. AT&T does not believe that Staff's proposed schedule provides sufficient time for the parties to file comments to the Final Report. AT&T also argues that the Final Report should not be issued until the Master Test Plan and Test Standard Document have been complied with and the open issues resolved.

On February 21, 2002, Staff filed a Reply to AT&T and Qwest's Response to Staff's Request to modify January 15, 2002 Procedural Order.

The Hearing Division convened a Procedural Conference on February 21, 2002, for the purpose of taking additional comments from the parties concerning scheduling and the criteria for issuing the Final Report. On February 26, 2002, AT&T filed a list of issues concerning the Final Report.

AT&T is concerned that under Staff's proposed schedule, CGE&Y would be issuing its Final Report on the OSS test prematurely, before all Incident Work Orders ("IWOs") are closed and all retesting completed. Staff explained that it was Staff's intent that CGE&Y's Final Report would not issue before all IWOs were closed. Staff further stated that many of AT&T's concerns will either be addressed in the CGE&Y Final Report, or in Staff's Report on the CGE&Y Final Report. Staff believes that it would be close to impossible to resolve every dispute to every party's satisfaction prior to the Final Report issuing. Staff stated that although some re-testing may continue subsequent to the issuance of the Final Report, such tests are immaterial to the ultimate conclusion of whether Qwest's OSS is sufficient.

Until CGE&Y issues its Final Report on the OSS test, and Staff issues its recommendations concerning that Final Report, the Commission is unable to evaluate AT&T's concerns about the testing process or the test administrator's conclusions. AT&T has a valid point that outstanding IWOs should be closed prior to CGE&Y issuing the Final Report, however, CGE&Y, the test administrator, should have some discretion in determining when the OSS test is complete and it can issue its Final Report. Either the CGE&Y Final Report or Staff's Report and recommendations on

1

5

concerning Owest's OSS.

would request additional time.

28

prior to the completion of all re-testing. All interested parties will have an opportunity to comment on the completeness and conclusions of the CGE&Y Final Report and Staff Report.

Staff may either address the Change Management Redesign Process and the Stand Alone Test Environment ("SATE") in its Staff Report on the Final Report or in separate reports.

Pursuant to prior Procedural Orders, and in conformance with Staff's current request, parties.

Pursuant to prior Procedural Orders, and in conformance with Staff's current request, parties shall file comments on the CGE&Y Final Report and the Staff Report, ten days after Staff files its Report. They should have at least 20 days from the date CGE&Y issues its Final Report to file comments. AT&T agreed to this schedule as long as all of the testing documentation is in the viewing room on the date the Final Report issues. If the documentation is not available for viewing, the comment period on the Final Report and Staff Report shall be extended one day for every day the documentation is not available.

the Final Report should address the issues AT&T raises. As has occurred throughout the Section 271

process, the Commission has the option of accepting or rejecting Staff's recommendations and may

determine that a hearing or additional testing is required to make a final recommendation to the FCC

Report by March 7, 2002, and that Staff could file its Report on the Final Report ten days thereafter.

Staff stated that if CGE&Y was not prepared to issue the Final Report within that timeframe, because

all IWO's were not closed or it believed it needed to see the results of additional re-testing, CGE&Y

issues. If re-testing is ongoing after the CGE&Y Final Report, Staff should either delay issuance of

its Staff Report until after the re-testing is complete or provide justification in its Staff Report why it

believes the Commission should consider the CGE&Y Final Report and Staff's recommendations

At the February 21, 2002 Procedural Conference, Staff stated CGE&Y could issue its Final

Staff believes that in certain circumstances, re-testing can continue even after the Final Report

During the February 21, 2002, Procedural Conference, Qwest distributed a proposed schedule for Staff to issue its recommendations on remaining Section 271 Checklist Items, the Hearing Division to issue Recommended Orders and the Commission to schedule Open Meetings to consider

the items. Qwest's proposed schedule does not account for the possibility that the Hearing Division or Commission may conclude that a hearing is required to resolve disputed items. It is not in the public interest to pre-determine when the Commission's analysis should be complete. Staff has stated it will work diligently to issue the remaining Reports.

IT IS THEREFORE ORDERED that CGE&Y shall issue its Final Report on the OSS test, or request additional time, by March 7, 2002.

IT IS FURTHER ORDERED that Staff shall file its Staff Report on the CGE&Y Final Report within 10 days of the date of the Final Report. In the event re-testing is continuing after the issuance of the Final Report, Staff shall address the re-test result in its Staff Report, and may request additional time to complete its Staff Report if Staff believes the re-test results are material to its ultimate recommendation. If Staff believes that its ultimate recommendation would not be affected by the results of any re-testing, the Staff Report should explain why the re-test results are not material or propose a procedure for addressing the test results at a later date.

IT IS FURTHER ORDERED that parties shall submit comments on the Final Report and Staff Report within 20 days of the date of the Final Report or within ten days of the Staff Report, whichever is greater. The comment period shall be extended by one day for every day after the issuance of the Final Report that the supporting documentation is not available in the viewing room.

DATED this 4th day of March, 2002.

JANEL RODDA POROLE

ADMINISTRATIVE LAW JUDGE
